

MRISB 4-STEP LESSON DESIGN | UbD × ETEC

OUTCOME → PROOF → PREPARE → RESPOND → REFLECT *Plan the learning first; let the checklist follow. Click a field to type • click a box to tick it.*

Teacher	Subject	Grade / Section	Date / Period	Unit / Topic
Mr. Ashraf Elbialy	Computer Studies (DigiChamps L10)	Grade 10 - Classes 10/1 to 10/6	Wk 5 (4-8 Oct 2026) - Period 2	Unit 2 - 2.1 Creative Photo Editing (2/3)
Pacing (2-1-1-2): ☒ On plan ☐ Ahead ☐ Behind Weeks ahead / behind: 0 Week / lesson: Week 5 / Lesson 2 of 2		Starting point (2-2-1-3): What did my last check (quiz, exit ticket, homework) show — and what am I changing today because of it? Exit ticket P1: 85% matched tools correctly; Foreground Select steps still shaky. Start with a 3-min retrieval demo; add a step card.		

1 OUTCOMES — What must students learn?

Desired learning outcome(s) — trace to the curriculum / standard and the table of specifications (ToS)

Students change the look of an image with GIMP filters: Old Photo (Defocus, Sepia, Mottle, Border) and Newsprint, and explain how each setting changes the pixels. Sprint 2.1 obj. 2; Master Challenge 3; ISTE 6.b.

Success criteria — what will successful learning look / sound like?

I can turn a modern photo into an old-looking photograph using Filters > Decor > Old Photo; I can apply Newsprint and describe what each option changes.

Key knowledge / skill / understanding:

Filters change pixel characteristics; Work on Copy protects the original; border size > 0 gives a jagged edge.

Likely misconception / access or challenge need:

Thinking sepia = grayscale; applying filters to the wrong layer. EAL: explain 'mottle', 'jagged'.

2 PROOF — What will students do to show they have learned it? *Three activities, each with a DIFFERENT strategy, resource and evidence tool. Then tick the Coverage Check on page 2.*

ACTIVITY 1 <i>student task + evidence of learning</i>	ACTIVITY 2 <i>student task + evidence of learning</i>	ACTIVITY 3 <i>student task + evidence of learning</i>
Strategy: Discussion / dialogue ☒ Time: 7 min	Strategy: Project-based task ☒ Time: 23 min	Strategy: Gamification ☒ Time: 8 min
What students will do: Compare two versions of the same monument photo (modern vs old-look). In pairs list 3 visible differences and guess which filter options produced them; share with the class.	What students will do: Master Challenge 3: collect images of 3 monuments from different countries (incl. your own), place them on a 700x700 canvas with File > Open as Layers, arrange with the Move tool, then apply Old Photo; try Newsprint on one copy.	What students will do: Kahoot-style 'Name that filter': students see an edited image and pick the filter/setting used; points for speed and accuracy.
Evidence tool: Oral questioning ☒ Assessment: ☒ Diagnostic ☐ Formative ☐ End Grouping: ☐ Individual ☒ Pair ☐ Group	Evidence tool: Practical / performance task ☒ Assessment: ☐ Diagnostic ☒ Formative ☐ End Grouping: ☒ Individual ☐ Pair ☐ Group	Evidence tool: Digital quiz (Forms / Kahoot / Quizizz) ☒ Assessment: ☐ Diagnostic ☒ Formative ☐ End Grouping: ☒ Individual ☐ Pair ☐ Group
Resources: Slide: before/after monument photo; vocabulary list (border, jagged, filter).	Resources: GIMP; image pack PXI2; trusted image sources (Wikimedia Commons, Unsplash); QR videos kCEN, 4CRi.	Resources: Kahoot/Quizizz with 8 image questions.
Support (low performers / SEN): Vocabulary list with pictures; sentence frame 'The ... looks ... because ...'.	Support (low performers / SEN): Pre-sized canvas template and 3 ready images; checklist of 5 steps.	Support (low performers / SEN): Questions shown with images and short text; play in teams if needed.
Stretch (fast learners / gifted): Predict how each Old Photo checkbox changes the image before testing.	Stretch (fast learners / gifted): Add a caption layer with the monument name and a fuzzy border; compare file sizes before/after.	Stretch (fast learners / gifted): Bonus round: give the exact menu path for each filter.

3 PREPARE — What do I need to do so students can succeed?		4 RESPOND — What will I do with what I see and hear?	
Set students up to succeed: ☒ Hook / prior learning ☒ Explain or model ☒ Success criteria shared ☒ Key vocabulary / examples ☒ Real-life connection ☒ Clear instructions / resources ☒ Praise, recognition and reinforcement planned		If students struggle or finish early I will: ☒ Re-teach ☒ Regroup ☒ Give extra support ☒ Stretch ☒ Have students redo / improve	
My setup / modelling: Time: 5 min Retrieval: 3-min re-demo of Foreground Select. Hook: 'How would this monument have looked in 1920?' Model Filters > Decor > Old Photo: tick/untick Defocus, Sepia, Mottle; change Border Size live; show Work on Copy. Model Filters > Distorts > Newsprint briefly. Share success criteria.		What I will watch for / likely responses: Images found on random sites with watermarks (link back to IP check); layers not aligned; Old Photo applied to only one layer; students choosing only home-country images (good) but not crediting the source. Expected: 'Sepia makes it black and white'.	
What is new or innovative in this lesson? <i>(ETEC looks for this)</i> Culturally responsive brief: each student includes a monument from their own heritage, so the class builds a 'world gallery'; image-credit line required (digital citizenship link to Unit 1).		Close / exit check <i>(summative + time for learners' questions)</i> Time: 7 min Gallery: 3 students show their work on the display board and explain one setting. Exit check: 2 questions on Old Photo options + learners' questions.	
Progress recorded / shared: ☒ Gradebook ☐ Parents ☒ Written feedback in notebook / portfolio		Homework / platform <i>(e.g. Madrasati)</i> Madrasati: upload the old-photo collage with the source of each image. Read student book pages on painting effects (GIMPpressionist).	

5 REFLECT — After the lesson <i>Complete within a day. This is reflective-practice evidence and feeds your next Starting point.</i>					
What worked — and how do I know? Monument brief worked well: students from Egypt, Pakistan, the Philippines and Saudi Arabia shared heritage proudly; engagement high. Kahoot showed 80% could name the filter.		What will I change next time? Give a list of trusted image sites at the start - some students lost time on watermarked images. Pre-load the 700x700 template for slower PCs.		Students needing follow-up: 5 students (mainly 10/2, 10/6) did not finish arranging layers; 2 SEN students need the step checklist printed, not on screen.	

COVERAGE CHECK <i>Tick where each must-have happens (1 · 2 · 3 = activity, C = close, H = homework). An empty box is a gap to fix before teaching. Literacy and numeracy apply in every subject.</i>							
Literacy read + write · 2-1-1-6 ☒1☐2☐3☒C☐H	Numeracy numbers / data · 2-1-1-6 ☐1☒2☐3☐C☐H	Digital students use it · 2-1-1-4 ☐1☒2☒3☐C☒H	Digital research trusted sources · 2-1-1-4 ☐1☒2☐3☐C☒H	Real-life ① application · 2-1-1-5 ☐1☒2☐3☐C☐H	Real-life ② application · 2-1-1-5 ☒1☐2☐3☐C☐H	Inquiry experiment / research · 2-1-1-7 ☒1☐2☐3☐C☐H	Thinking problem-solving · 2-1-1-7 ☐1☐2☒3☐C☐H
Create something new · 2-1-1-7 ☐1☒2☐3☐C☒H	Discussion expressing ideas · 2-1-1-8 ☒1☐2☐3☒C☐H	Pair / group cooperative work · 2-1-1-8 ☒1☐2☐3☐C☐H	Learner choice independent work · 3-2-1-6 ☐1☒2☐3☐C☐H	Self-assessment 2-2-1-1 ☐1☐2☐3☒C☐H	Peer assessment 2-2-1-1 ☐1☐2☐3☒C☐H	SEN / low specific support · 2-1-1-3 ☒1☒2☒3☐C☐H	Gifted specific stretch · 2-1-1-3 ☒1☒2☒3☐C☐H

ALWAYS VISIBLE IN DELIVERY: Safe, respectful climate • every learner drawn in • purposeful use of time • smooth transitions • learner voice • specific feedback and next steps • students act on feedback
