

MRISB 4-STEP LESSON DESIGN | UbD × ETEC

OUTCOME → PROOF → PREPARE → RESPOND → REFLECT Plan the learning first; let the checklist follow. Click a field to type • click a box to tick it.

Teacher	Subject	Grade / Section	Date / Period	Unit / Topic
Mr. Ashraf Elbially	Computer Studies (DigiChamps L10)	Grade 10 - Classes 10/1 to 10/6	Wk 7 (18-22 Oct 2026) - Period 1	Unit 2 - 2.2 Advance Photo Editing (2/2)
Pacing (2-1-1-2): ☒ On plan ☐ Ahead ☐ Behind Weeks ahead / behind: 0 Week / lesson: Week 7 / Lesson 1 of 2		Starting point (2-2-1-3): What did my last check (quiz, exit ticket, homework) show — and what am I changing today because of it? Exit ticket: 78% named the 3 ranges; file-type reasoning weak. Today: revisit formats when exporting .gif and focus on repair tools.		

1 OUTCOMES — What must students learn?

Desired learning outcome(s) — trace to the curriculum / standard and the table of specifications (ToS)

Students repair images with GIMP tools: Red Eye Removal, Clone tool (create copies) and Despeckle; export as .gif. Sprint 2.2 obj. 3-5; Challenges 2-3; ISTE 6.b; Mass. 9-12.CT.c.1.

Key knowledge / skill / understanding:

Clone is a Paint tool (copies pixels from a source); Despeckle reduces noise; red eye comes from camera flash.

Success criteria — what will successful learning look / sound like?

I can remove red eye by selecting the eyes and adjusting Threshold; I can clone a pattern with Ctrl+click source; I can reduce noise with Despeckle and export .gif.

Likely misconception / access or challenge need:

Clone tool = copy/paste a layer; Despeckle 'sharpens'; red eye is a camera fault that can't be fixed.

2 PROOF — What will students do to show they have learned it? Three activities, each with a DIFFERENT strategy, resource and evidence tool. Then tick the Coverage Check on page 2.

ACTIVITY 1 student task + evidence of learning	ACTIVITY 2 student task + evidence of learning	ACTIVITY 3 student task + evidence of learning
Strategy: Storytelling ☒ Time: 7 min	Strategy: Stations / carousel ☒ Time: 22 min	Strategy: Cooperative learning ☒ Time: 8 min
What students will do: Teacher tells 'Tina's photo' story (exercise Q3): a family flash photo with red eyes. Students explain why it happened and suggest a fix on whiteboards.	What students will do: Rotate through 3 repair stations (7 min each): 1) Red Eye Removal with Threshold; 2) Clone a pattern/tree several times (Challenge 2); 3) Despeckle a noisy scan and export as .gif (Challenge 3).	What students will do: Groups produce a 'repair guide' card for one tool (menu path, 3 steps, one tip) and share it on Teams for the class.
Evidence tool: Mini-whiteboards ☒ Assessment: ☒ Diagnostic ☐ Formative ☐ End Grouping: ☒ Individual ☐ Pair ☐ Group	Evidence tool: Observation checklist ☒ Assessment: ☐ Diagnostic ☒ Formative ☐ End Grouping: ☐ Individual ☐ Pair ☒ Group	Evidence tool: Peer-assessment checklist ☒ Assessment: ☐ Diagnostic ☒ Formative ☐ End Grouping: ☐ Individual ☐ Pair ☒ Group
Resources: Story slide with Tina's photo; whiteboards.	Resources: GIMP; station images; QR videos WCUC, KCIT, oCOW; station cards.	Resources: Teams channel; card template.
Support (low performers / SEN): Story with pictures; key words: flash, iris, reflect.	Support (low performers / SEN): Station cards with numbered screenshots; peer helper at each station.	Support (low performers / SEN): Template with headings already filled.
Stretch (fast learners / gifted): Explain the science of red eye (light reflecting off the retina).	Stretch (fast learners / gifted): At station 2 hide an unwanted object with Clone so no one can tell.	Stretch (fast learners / gifted): Add a 'common mistake' box with a fix.

3 PREPARE — What do I need to do so students can succeed?	4 RESPOND — What will I do with what I see and hear?
Set students up to succeed: ☒ Hook / prior learning ☒ Explain or model ☒ Success criteria shared ☒ Key vocabulary / examples ☒ Real-life connection ☒ Clear instructions / resources ☒ Praise, recognition and reinforcement planned	If students struggle or finish early I will: ☒ Re-teach ☒ Regroup ☒ Give extra support ☒ Stretch ☒ Have students redo / improve
My setup / modelling: Time: 5 min Hook: three 'damaged' photos (red eye, scratches, missing pattern). Model each tool for 1 minute: select eyes > Filters > Enhance > Red Eye Removal; Ctrl+click clone source; Filters > Enhance > Despeckle (low radius, Black/White level). Explain station rotation and timer.	What I will watch for / likely responses: Red Eye applied without selecting eyes first; Clone source not set (error message); Despeckle radius too high making image blurry; .gif export losing colours (explain 256-colour limit).
What is new or innovative in this lesson? (ETEC looks for this) Students create and publish peer 'repair guide' cards on Teams - a class-made help library reused in the Unit 2 assessment revision.	Close / exit check (summative + time for learners' questions) Time: 8 min Exit check: Forms MCQ (exercise Qs: tool for background, Clone category, Rotate category) + one question on why .gif looked different. Learners' questions.
Progress recorded / shared: ☒ Gradebook ☒ Parents ☒ Written feedback in notebook / portfolio	Homework / platform (e.g. Madrasati) Madrasati: complete exercise 'Match the following' and 'Fill in the blanks' (Unit 2). Upload one repaired image.

5 REFLECT — After the lesson <i>Complete within a day. This is reflective-practice evidence and feeds your next Starting point.</i>		
What worked — and how do I know? Stations worked smoothly with timers; repair cards were clear and some groups used Arabic + English labels, which helped EAL peers. Most completed all three tools.	What will I change next time? Give a 1-minute 'reset' between stations; one group lost time logging in. Explain .gif palette limit before station 3.	Students needing follow-up: 10/1 and 10/5: few students confused Clone with copy/paste. Inform parents of 3 students with missing homework uploads.

COVERAGE CHECK <i>Tick where each must-have happens (1 · 2 · 3 = activity, C = close, H = homework). An empty box is a gap to fix before teaching. Literacy and numeracy apply in every subject.</i>							
Literacy read + write · 2-1-1-6 ☐ 1 ☐ 2 ☒ 3 ☒ C ☐ H	Numeracy numbers / data · 2-1-1-6 ☐ 1 ☐ 2 ☐ 3 ☐ C ☒ H	Digital students use it · 2-1-1-4 ☐ 1 ☒ 2 ☒ 3 ☐ C ☒ H	Digital research trusted sources · 2-1-1-4 ☐ 1 ☒ 2 ☐ 3 ☐ C ☐ H	Real-life ① application · 2-1-1-5 ☒ 1 ☐ 2 ☐ 3 ☐ C ☐ H	Real-life ② application · 2-1-1-5 ☐ 1 ☒ 2 ☐ 3 ☐ C ☐ H	Inquiry experiment / research · 2-1-1-7 ☒ 1 ☐ 2 ☐ 3 ☐ C ☐ H	Thinking problem-solving · 2-1-1-7 ☒ 1 ☒ 2 ☐ 3 ☐ C ☐ H
